Why Teach English Abroad?

English is everywhere. It is the language of globalization – of international business, politics, and diplomacy. It is the language of computers and the internet. You'll see it on posters in Beijing, you'll hear it in pop songs in Tokyo, and you'll read it in official documents in Prague. Deutsche Welle broadcasts in it. Scandinavian bands sing in it. French business schools teach in it.

English is now the global language.

Whether you are still in school, have just graduated or are looking for a change, teaching English abroad allows you to:

- Travel extensively to exotic locations
- Experience an exciting, in-demand job
- Save considerable amounts of money
- Immerse yourself in new cultures
- Gain valuable life and career experience

Armed with our internationally-recognized TESOL/TESL/TEFL certificate, Oxford Seminars graduates have found teaching jobs around the world.

My instructor was great, always willing to assist and answer any questions. This course pushes your knowledge far beyond what you may have studied previously.

L. Roach

A man with a backpack is sitting on a concrete wall, looking at his phone. He is wearing a red and blue plaid shirt and grey shorts. The background shows a building with a wooden roof and palm trees.

What is the difference between TESOL, TESL, and TEFL?

They are interchangeable terms that essentially mean the same thing.

TESOL = Teaching English to Speakers of Other Languages

TESL = Teaching English as a Second Language

TEFL = Teaching English as a Foreign Language

Certain acronyms will be more common depending on where you will be teaching.

This is a great course. Any concerns you might have about teaching and living overseas are well addressed and explained.

Asia is the largest ESL market in the world. English teachers are in high demand, with many positions available for both new and experienced teachers. Large markets like China and Korea are great for first time teachers, as many positions do not require previous teaching experience.

The Middle East tends to have the highest standards for applicants, with most employers requiring their teachers to have Bachelor's degrees in English or Education, or Master's degrees in a related field in addition to prior ESL teaching experience. Positions in the Middle East are more suited to those seeking their second and third teaching jobs.

Africa boasts a diverse array of cultures and landscapes and a variety of paid and volunteer teaching positions. With its close proximity and historical influences from Europe and the Middle East, North Africa is a cultural crossroads for European, African, and Arab cultures.
